

Looking to License our Business

Since 2015 management sold off all rental operations and decided to direct the Company's efforts towards a totally **disruptive technology** path. Management's efforts since 2015 have been focused on building the foundation of new comfort station and franchising concepts as the old industry at which management excelled is slowly becoming archaic. It is no longer safe to be inside a small cubicle where human waste is stored, and we want to manufacture and market safe (www.PandemicPositive.com) products that people want to use.

We are pleased and feel fortunate with the new licensing and revenue stream opportunities that are developing. Some of the new developing revenue streams are the **Comfort Station Buy Back** ([Page 3 of Porta John Presentation](#)); the wider application for our www.ADDABath.com product marketing, as well as the AddABath dealership and/or franchise concept; and the franchising opportunity in the solid waste industry (www.WasteManagementFranchise.com).

We will expand the proprietary products offered in both the first and second revenue streams ([Page 5 of Porta John Presentation](#)). What started with the folding portable toilet has morphed into a solid business which is an excellent fit for our proprietary product and domain assets (www.DisasterRelief.com).

The following narrative is meant to serve as an introduction to our multi-faceted established business concepts.
