

Revenue Stream Assets and Affiliate Marketing Partner

Management is not looking to develop another rental business and are content with the freedom to pursue the disruptive innovations that a limited Comfort Station manufacturing business affords. Management's objective is to team up with a partner to develop our proprietary Revenue Systems.

If you have a person or company that has expertise in developing an affiliate marketing business, we have the prerequisite domain assets and we would like to talk with them.

We would like to develop affiliate marketing in addition to or in conjunction with our existing multiple revenue stream business model (see attached Revenue Stream 2 in our Business Model).

The affiliate marketing partner (AMP) would purchase the right to develop affiliate marketing domains utilizing the Toilets.com domain for five years for an investment and split the revenue 50/50. Braxton would be responsible to trademark Toilets.com. Below are initial requirements we would like:

- Braxton will have no development cost.
- AMP will redo the Toilets.com page utilizing the PortaJohn.com brand name.
- Place Porta John® products on the Toilets.com page to PJ specifications.
- The affiliate marketing partner (AMP) would get first opportunity to develop additional domains. We believe that we have at least 80 domains with affiliate marketing potential.
- AMP will develop two additional domains at no cost from a list of our domains (examples are below):

www.HandSanitizer.com – www.ToiletsRUs.com – www.JanitorialSupplier.com
www.Sanitizers.com – www.Sanitizing.com – www.SurfaceSanitizing.com –
www.ToiletSales.com – www.WeldingSupplies.com –
www.TemporaryAccommodations.com – www.SurplusSale.com –
www.BargainBidding.com – www.GenericChemicals.com –
www.PlumbersSolution.com – www.DisasterRelief.com – www.ComfortStation.com –
www.FranchiseFinder.com – www.ToiletSale.com – www.ToiletSales.com

- Braxton will give new AMP partner first option to develop existing or newly acquired domains.
- We also think that we can generate over two million dollars annually in revenue which will generate one million dollars in profit for us.
- Most of the affiliate marketers are interested in our toilets.com domain. This domain is critical to our revenue stream business model.
